QUALITY CERTIFICATE

FILTER PROPERTIES	RESULTS
TYPE	BAG FILTER
LENGTH	200 mm
DIAMETER	90 mm
PROSES-T.İ.M. STOCK NUMBER	911.002
FILTRATION SIZE	20 - 25 - 30 - 50 - 75 - 100 - 120 - 150 - 200 - 250 - 300 - 500... micron (TS8396)
RING MATERIAL	Rope Shirring
FILTER MEDIA	%100 Monofilament Polyester woven filter cloth
RESISTANCE DATA OF FILTER	Polyester is resistant to acids, oxidizing agents, organic substances and many chemicals and it is widely used in many fields. It is not resistant to alkalis and hydrolysis. The maximum continuous operating temperature is 130 degree Celsius and the maximum peak temperature is 150 degree Celsius. It is convenient for the water filtration.

We have EN ISO 9001 Quality Certificate, Trade Mark Certificate, Global Synchronization One - GS1 Certificate, Water Quality Certificate, GHOST-R Certificate, and our products have CE Marking and are also certified by "The Ministry of Health of Turkey".

All products are manufactured in accordance with the quality parameters and operating instructions. The control operations of the intermediate and final products are completed. The product quality and specifications are approved.
